Discussion of financial and operational results for the third quarter Income statement

Consolidated total revenue grew 2% to \$1.3 billion. Foreign exchange rates produced a 400bps headwind to consolidated total revenue growth. In the U.S., total revenue grew 6% to \$852 million. In Mexico, total revenue declined 5% to \$452 million. Excluding the impact of FX rates, Mexico revenue grew 5%.

Advertising revenue increased 3% to \$799 million. In the U.S., advertising revenue grew 5% to \$483 million driven by growth in DTC and political advertising. In Mexico, advertising revenue declined 1% to \$316 million. Excluding the impact of FX rates, Mexico advertising revenue grew 10%, reflecting the acquisition of third-party ad inventory and popular sports content including Copa America and the Olympics.

Subscription and licensing revenue increased 1% to \$478 million. In the U.S. it grew 6% to \$351 million. In Mexico, it declined 12% to \$127 million. In local currency, it declined 4%, reflecting a decline in content licensing and linear platform subscribers, partially offset by growth in ViX's premium tier.

Operating expenses grew 1% to \$878 million, or 5% excluding FX, driven by continued investments in ViX, investments in the expansion of our third-party advertising sales business in Mexico, and higher sports-related costs with Copa America in both U.S. and Mexico and the Olympics in Mexico. Adjusted OIBDA grew 4% to \$427 million, reflecting growth and profitability in DTC.

RECONCILIATION OF OPERATING INCOME TO ADJUSTED OIBDA²

Management of the Company evaluates operating performance for planning and forecasting future business operations by considering Adjusted OIBDA (as described below) and Bank Credit Adjusted OIBDA (as described below). Management also uses Bank Credit Adjusted OIBDA to assess the Company's ability to satisfy certain financial covenants contained in the Company's senior secured credit facilities and the indentures governing its senior notes. Adjusted OIBDA and Bank Credit Adjusted OIBDA eliminate the effects of certain items that the Company does not consider indicative of its core operating performance. Adjusted OIBDA represents operating income (loss) before depreciation, amortization, and certain additional adjustments to operating income (loss). Bank Credit Adjusted OIBDA represents Adjusted OIBDA with certain additional adjustments permitted under the Company's senior secured credit facilities, new term loan and indentures governing the senior notes that include add-backs and/or deductions, as applicable, for specified business optimization expenses, and income (loss) from equity investments in entities, the results of which are consolidated in the Company's operating income (loss), that are not treated as subsidiaries, and certain other expenses. Adjusted OIBDA and Bank Credit Adjusted OIBDA are not, and should not be used as, indicators of or alternatives to operating income (loss) as reflected in the consolidated financial statements. They are not measures of financial performance under GAAP and they should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP. Since the definition of Adjusted OIBDA and Bank Credit Adjusted OIBDA may vary among companies and industries, neither should be used as a measure of performance among companies. The Company is providing a reconciliation of the non-GAAP terms Adjusted OIBDA and Bank Credit Adjusted OIBDA to operating income, which is the most directly comparable GAAP financial measure.

Adjustments to Adjusted OIBDA do not include any adjustments described elsewhere in this press release relating to bad debt expenses incurred in the first quarter of 2023. Such amounts are not excluded from Adjusted OIBDA but are presented herein solely for informational purposes.
