Q3 2025 RESULTS

TELEVISAUNIVISION ANNOUNCES THIRD QUARTER 2025 RESULTS

Financial and operational highlights

- Total revenue was \$1.3 billion, improving sequentially versus the first and second quarters of 2025
- Operating Income was \$265 million compared to \$419 million in the prior year; excluding the prioryear gain from the sale of a non-core tower portfolio, Operating Income grew 3%
- Adjusted OIBDA increased 9% to \$467 million, driven by continued DTC profitability growth and the sustained benefits of cost efficiency initiatives implemented at the end of 2024
- Ended the quarter with \$464 million of cash and a leverage ratio of 5.5x, maintaining a strong and stable liquidity position
- Refinanced \$2.3 billion of debt year to date, essentially eliminating all maturities through 2027, and extended the company's Revolving Credit Facility and Accounts Receivable Facility

MIAMI – October 23, 2025 – TelevisaUnivision, the world's leading Spanish-language media company, today announced financial results for the third quarter ended September 30, 2025.

"Our history is one of purpose, progress, and partnership with an audience that continues to shape the future of this country and beyond. TelevisaUnivision stands as the Voice of all Hispanics around the world. Our third-quarter results demonstrate the disciplined execution of our reimagined content strategy and the continued momentum of ViX as a key growth engine," said Daniel Alegre, Chief Executive Officer of TelevisaUnivision. "Our leadership is further cemented by the audience we serve — wielding outsized influence in the U.S., unrivaled in Mexico, and driving cultural and commercial impact around the world."

Discussion of financial and operational results for the third quarter Income statement

Consolidated total revenue was \$1.3 billion, a decline of 3% or 1% excluding political advertising. U.S. revenue declined 2% to \$831 million, or flat when excluding political. Mexico revenue declined 3% to \$439 million, which included an approximate 200bps benefit from favorable foreign exchange rates.

Advertising revenue declined 6% to \$755 million or 3% excluding political advertising. In the U.S., advertising revenue declined 11% to \$428 million, or 8% excluding political advertising, as growth in DTC was more than offset by softness in linear. In Mexico, advertising revenue increased 3% to \$327 million, driven by growth in DTC.

Subscription and licensing revenue grew 3% to \$493 million. The growth was driven by ViX's premium tier and higher content licensing revenue partially offset by linear subscription declines primarily related to the renewal cycle with a key distribution partner in Mexico that was partially offset by growth in the U.S. The U.S. grew 11% to \$388 million while Mexico declined 17% to \$105 million, but grew 5% excluding the renewal cycle impact with a key distribution partner in Mexico.

Operating expenses decreased 8% to \$804 million, reflecting the continued benefit of our streamlined cost structure.

Operating Income declined 37% to \$265 million, but increased 3% excluding the gain in the prior year from the sale of a portion of a non-core tower portfolio. Adjusted OIBDA grew 9% to \$467 million, or 13% excluding the impact of political, reflecting sustained DTC profitability and disciplined expense management.

Cash flow and balance sheet

Cash flows used in operating activities for the three months ended September 30, 2025 were \$34 million, compared to \$93 million of cash provided in the prior year quarter. Investing activities for the three months ended September 30, 2025 included capital expenditures of \$25 million compared to \$22 million in the prior year. The Company ended the quarter with \$464 million in cash on its balance sheet.

During the quarter the Company refinanced approximately \$2.3 billion of debt, effectively addressing all remaining 2027 maturities. This was accomplished through the issuance of \$1.5 billion in new Senior Secured Notes due 2032, and the amendment and restatement of its \$764 million Term Loan A Credit Facility. In addition, the Company extended its \$500 million Revolving Credit Facility and refinanced its \$400 million Accounts Receivable Facility with its existing commercial bank lenders.

EARNINGS PRESS RELEASE Page 3 of 10

The leverage ratio, or net debt to adjusted OIBDA, was 5.5x as of September 30, 2025, consistent with the end of the prior quarter.

Forward-Looking Statements / Safe Harbor

Certain statements contained within this press release constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. In some cases you can identify forward looking statements by terms such as "anticipate," "plan," "may," "intend," "will," "expect," "believe," "optimistic" or the negative of these terms, and similar expressions intended to identify forward-looking statements. These forward-looking statements reflect our current views with respect to future events and are based on assumptions and are subject to risks and uncertainties. Also, these forward-looking statements present our estimates and assumptions only as of the date of this press release.

Factors that could cause actual results to differ materially from those expressed or implied by the forwardlooking statements in this press release include: (1) cancellations, reductions or postponements of advertising or other changes in advertising practices among our advertisers; (2) any impact of adverse economic or political conditions on our industry, business and financial condition, including inflationary pressures, increases in interest rates, decreases in consumer spending, recessionary fears and reduced advertising revenue and volatility and weakness in the capital markets; (3) failure to renew existing carriage agreements or reach new carriage agreements with multichannel video programming distributors ("MVPDs") on acceptable terms or otherwise and the impact of such failure on pricing terms of, and contractual obligations under, carriage agreements with other MVPDs; (4) changes in the size of the U.S. Hispanic population, including the impact of U.S. federal and state immigration legislation and policies on both the U.S. Hispanic population and persons emigrating from Latin America; (5) failure to continue our content and programming strategy, including for our sports programming and the content we obtain from Grupo Televisa, as well as lack of audience acceptance of our content or varying popularity of programming; (6) competition in the media industry, including effects of consolidation in the cable or satellite MVPD industry; (7) risks and uncertainties related to, and disruptions to our business and operations caused by, the TelevisaUnivision Transaction and the combination of the companies' content business; (8) failure of our subscription video-on-demand ("SVOD") or ad-supported video-on-demand ("AVOD") services as part of our strategy to provide streaming channels and on-demand Spanish-language programming to Hispanic audiences throughout the world; (9) disruption of our business due to network and information systemsrelated events, such as computer system or network breaches, hackings or other security incidents, viruses, or other destructive or disruptive software or activities; (10) failure to protect our intellectual property, including piracy of our programming and other content, or other infringement or violation of our intellectual property rights, (11) the impact of U.S. and Mexican regulations including Federal Communications Commission regulations and other U.S. and Mexican communications laws, as well as the impacts of tariff and trade policies; (12) risks related to our substantial indebtedness and ability to pay our debt; and (13) other factors that may be set forth in the Forward Looking Statements accompanying our annual audited and interim unaudited financial statements from time to time. Actual results may differ materially due to these risks and uncertainties. The Company undertakes no obligation to modify or revise any forwardlooking statements to reflect events or circumstances occurring after the date that the forward-looking statement was made.

Non-GAAP Financial Measures

Management of the Company evaluates operating performance for planning and forecasting future business operations by considering operating income before depreciation, amortization and certain additional adjustments to operating income ("Adjusted OIBDA"). See "Reconciliation of Operating Income to Adjusted OIBDA" beginning on page 9 hereof.

In addition, the Company presents certain information on an "ex-FX" basis, meaning that it is presenting information on a basis that excludes the impact of foreign exchange rates. The impact of exchange rates on our business is an important factor in understanding period-to-period comparisons of our results. For example, our international revenues are favorably impacted as the U.S. dollar weakens relative to other foreign currencies, including the Mexican peso, and unfavorably impacted as the U.S. dollar strengthens relative to other foreign currencies, including the Mexican peso. We believe the presentation of results on an "ex-FX" basis, in addition to results reported in accordance with U.S. GAAP provides useful information about our operating performance because the presentation ex-FX excludes the effects of foreign currency volatility and highlights our core operating results. The presentation of results on an ex-FX basis should be considered in addition to, but not a substitute for, measures of financial performance reported in accordance with U.S. GAAP.

The ex-FX change represents the percentage change on a period-over-period basis adjusted for foreign currency impacts. The ex-FX change is calculated as the difference between the current year amounts translated at a baseline rate, which is an average rate for each of our currencies (the "2024 Baseline Rate"), and the prior year amounts translated at the same 2024 Baseline Rate. Results on an ex-FX basis, as we present them, may not be comparable to similarly titled measures used by other companies, including "constant currency basis".

RECONCILIATION OF OPERATING INCOME TO ADJUSTED OIBDA

Management of the Company evaluates operating performance for planning and forecasting future business operations by considering Adjusted OIBDA (as described below) and Bank Credit Adjusted OIBDA (as described below). Management also uses Bank Credit Adjusted OIBDA to assess the Company's ability to satisfy certain financial covenants contained in the Company's senior secured credit facilities and the indentures governing its senior notes. Adjusted OIBDA and Bank Credit Adjusted OIBDA eliminate the effects of certain items that the Company does not consider indicative of its core operating performance. Adjusted OIBDA represents operating income (loss) before depreciation, amortization, and certain additional adjustments to operating income (loss). Bank Credit Adjusted OIBDA represents Adjusted OIBDA with certain additional adjustments permitted under the Company's senior secured credit facilities, new term loan and indentures governing the senior notes that include add-backs and/or deductions, as applicable, for specified business optimization expenses, and income (loss) from equity investments in entities, the results of which are consolidated in the Company's operating income (loss), that are not treated as subsidiaries, and certain other expenses. Adjusted OIBDA and Bank Credit Adjusted OIBDA are not, and should not be used as, indicators of or alternatives to operating income (loss) as reflected in the consolidated financial statements. They are not measures of financial performance under GAAP and they should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP. Since the definition of Adjusted OIBDA and Bank Credit Adjusted OIBDA may vary among companies and industries, neither should be used as a measure of performance among companies. The Company is providing a reconciliation of the non-GAAP terms Adjusted OIBDA and Bank Credit Adjusted OIBDA to operating income, which is the most directly comparable GAAP financial measure.

The tables below set forth a reconciliation of the non-GAAP terms Adjusted OIBDA and Bank Credit Adjusted OIBDA to operating income.
